

Opening Transmission Constraints For Solar Development Locally and in the West — a workshop

Date and time: June 17, 2010, 1 to 5 p.m.

Location: **Arizona State University**
Brickyard 6th Floor, Room 660
699 South Mill Avenue
Tempe, AZ 85281

Discuss: Access to Palo Verde hub and the potential for new opportunities to move utility scale solar generation from Arizona to market.

Who should attend: Large scale solar developers, electric utilities with access to Palo Verde, community leaders.

To register: To register, contact Peggy Plate by e-mail at pjplate@msn.com or call 970-493-5786 by June 10, 2010. There is no charge to attend.

- Agenda topics:**
- ***DOE Solar Technology Program Overview/Opportunities***, by Jennifer DeCesaro, DOE Solar Technologies Program
 - ***Western's Transmission Infrastructure Program***, by Theresa Williams, Western Area Power Administration
 - ***Western Interconnection Procedures/Requesting Service***, by Mike Olson, Western Area Power Administration
 - ***The Developers' Perspective, Making Solar Projects Happen***, by Tom Georgis, SolarReserve
